

Female Vacuum

Hose Fitting Specifications

Style 34

Description

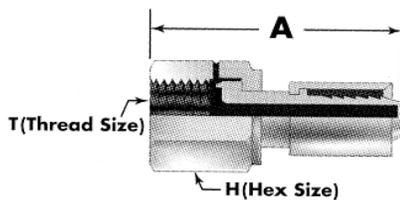

Vacuum fittings allow a "no-adapter" connection with Chemflur® fluoropolymer innercore hose. Vacuum style fittings require no axial clearance for assembly/disassembly. Sealing surfaces are mirror finish and threads are plated to prevent galling and allow repeated connections. Consult applicable hose specification tables for vacuum ratings by exact size. Chemflur® fluoropolymer hose is suitable for liquid and industrial vacuum-Chemflur® fluoropolymer tubing exhibits some permeation and absorption with many gases. This characteristic must be considered in full vacuum applications.

Material

Type 316L Stainless Steel Standard.

Size Range

Available in 1/4 inch & 1/2 inch sizes.

Female Vacuum Fitting Specifications Style 34

Hose Size ID (in.)	Part Number	Fitting ID (in.)	Hex 'H' (in.)	Thread 'T'	Overall Length 'A' (in.)
