## Thermo Scientific Masterflex

P/S Process Digital Pump Systems

## Transfer, dispense, and meter in lab, process and washdown environments

- IP66 and NEMA 4X rated. Sealed 316 stainless steel housing and sealed keypad are protected from dust, water, and chemicals in the wash down environment—simply hose down to clean.
- Flow rate: 0.006 to 3400 mL/min (0.0001 to 54 GPH) with P/S<sup>®</sup> tubing. Flow rate depends on drive rpm and tubing size.
- Graphical LCD display shows six different parameters: motor rpm, flow rate, dispense volume, cumulative volume, dispense interval time, and copy number.
- Brushless, maintenance-free motor with improved 0.1% speed control accuracy between cycles for convenient,

automated dispensing Dispense by: volume—in milliliters (0.001 to 99,999), liters, and gallons; copy—1 to 99,999 dispense cycles. Set time interval (SEC) between dispense cycles from 1 to 99,999 seconds.

Remote control capabilities
via fluid-resistant input/output connector on
back of drive:

- Speed control input: scalable 0 to 20 mA, 4 to 20 mA, 0 to 10 V;
- Pumping direction: requires open collector or contact closure;
- Start/stop/purge: requires open collector or contact closure;
- Tachometer output: scalable 0 to 20 mA, 4 to 20 mA, 0 to 10 V, or open collector.
